Dear Parents and Players,

Please do not commit to another baseball program until you have reviewed our new "9" Month Youth Baseball Experience. We have starting this program for ages 9-14 as an alternative (and hopefully a support) to town and club youth baseball programs.

We are starting this program because we are tired of running training programs for other leagues and club teams, only to watch the hard work of our players and staff, go backwards from inexperienced coaching and improper league playing dimensions. Not to mention the time, travel and money required of these programs.

With 30 years experience, we created this year round baseball program because we believe we can provide a reasonably priced and superior baseball experience for your player. We believe in fairness, playing experience, education, and character development. We do not believe in excessive pricing, travel or an over emphasis on winning.

We have bundled our various baseball programs into a 9 month fantastic youth baseball experience that ranges from indoor cutting edge winter training to ice cream and a movie at our summer overnight camp. While all our programs can still be attended separately as in previous years, this is an opportunity for the players to enjoy our various baseball programs throughout the year while the parents can enjoy a significant discount.
